Examiner: D. CRAIG

Filed: October 27, 2003

Docket No.: 117597

For: SIMULATION APPARATUS AND METHOD FOR STORING OPERATION
INFORMATION

SUMMARY OF SUBSTANCE OF INTERVIEW

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant appreciates the courtesies shown to Applicant's representative by Examiner Craig in the October 31, 2007 personal interview. Applicant's separate record of the substance of the interview is incorporated into the following remarks.

Applicant's representative discussed the arguments set forth in the Applicant's October 19, 2007 Amendment After Final Rejection ("AAFR"). Applicant's representative argued that the applied references do not teach, nor can they be reasonably be considered to have suggested, at least the feature of an event data storage section for storing into the storage section as event data information about the data, only when the setting operation of the data through the output data setting section is detected, as recited in claims 1 and 12. Applicant's representative further argued that the applied references are not combinable in the manner suggested by the Office Action. No agreement was reached.

Should any questions arise regarding this correspondence, all inquiries may be directed to Applicant's undersigned representative at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
